

## 2 Sided 1012 Snafooz Art Template

**Side One**

**Side Two**

### C-1012 Snafooz:

- Framework shown is standard & will appear on all puzzles unless otherwise specified by the customer.
- Logos may not always appear on the outside of the puzzle when it is completely assembled into a cube due to the varieties of ways that the puzzle may be assembled on particular skill levels.
- Foam materials are porous. Dark color inks are recommended over light colors. Fine details and half tones are discouraged in artwork from customers.
